

Activation Assignment

Beginner Web Design – HTML/CSS

Please complete this assignment prior to meeting with your instructor. Completion of an activation assignment is now required before students are officially enrolled in the course. The activation assignment will be included in your grading for the course.

If you have any questions about this activation assignment, please contact your instructor (info at bottom of page).

Assignment:

Read Chapter 1 – Introduction to HTML from HTML: Concepts and Techniques pages 2 through 20.

Imagine that you are creating a website for the local fire department. The website will contain some of the following info: Emergency Numbers, Recruitment information, Fire Safety info, Events, Programs

Part 1 (5 marks)

Please answer the following planning questions – you will have to put yourself in the “shoes” of the planning committee and come up with reasonable answers to the planning questions.

1. What is the purpose of this website.?
2. Who will use this website?
3. What are the user’s computer environments?
4. Who owns and authors the content of the website?
5. Who decides if/where the information goes on the web site?

Part 2 (4 marks)

Create two different website structures for this site. You should have at least 6 web pages – draw a structured diagram labeling each page (title).

Part 3 (6 marks)

Sketch a possible look for the home page – indicate what colors you might think appropriate for the site.

Total Points 14!
