### Part 3

Buying a Digital Camera – in this part of the assignment, you will be asked your opinion on what things to look for when purchasing a digital camera. Your answers to these questions will serve as a basis for class discussion about the features to look for when purchasing a digital camera.

Feature	Question	Response
Megapixels	More Megapixels are always better!	
Zoom	Optical and Digital zoom are the same thing.	
Zoom	You must always use a tripod when using the zoom features to get a clear picture.	
Image Stabilization	Using this feature means that you don't need a tripod	
File Types	The quality of the your photos can be improved by shooting in RAW format or using TIFF rather than JPG	
Memory	Shooting lots of video requires lots of memory whereas pictures take up very little space.	
Age of Camera	You really should consider upgrading your camera if it is more than 5 years old since technology is changing so rapidly.	
Price	The more you pay for a camera, the better your pictures will be.	
Exposure	Exposure refers to how dark or light the photo is.	
Face-Detection	This feature allows the camera to identify the people in photographs.
